

Abdullah Ahmed Abbas

Data Analyst

Egypt | [linkedin.com/in/abdullaabbas](https://www.linkedin.com/in/abdullaabbas) | github.com/Abdullabbas | abdullabbas.github.io/Abdullah_Portfolio_JDA

PROFESSIONAL SUMMARY

Motivated Data Analyst with hands-on training in Excel, Power BI, Python, and SQL, gained through intensive professional programs including the Digital Egypt Pioneers Initiative (DEPI) and Digitera. Skilled in cleaning and transforming raw data, building interactive dashboards, and translating business questions into clear, actionable insights through pivot tables, DAX measures, and KPI tracking. Strong analytical mindset with a passion for turning data into decisions, seeking to grow as a Data Analyst in a collaborative, data-driven environment. Comfortable working across the full analysis workflow, from raw data collection and cleaning to visualization and stakeholder-ready reporting.

SKILLS

Excel, Power BI, Python, SQL, Power Query, Pivot Tables, DAX

TRAINING

Digital Egypt Pioneers Initiative (DEPI) - Data Analysis Trainee	Present
Digitera (Eraasoft x iCareer) - Data Analysis / Professional Training	Completed

PROJECTS

Superstore Sales Analysis - Excel

- Performed data cleaning and transformation using Power Query; engineered Profit Margin and Sales Category fields.
- Built 5+ Pivot Tables and 3+ charts to surface sales and profitability trends.
- Designed an interactive KPI dashboard with 2+ slicers for dynamic filtering and reporting.

Marketing Campaign Analysis - Power BI

- Analyzed impressions, clicks, frequency, spend, and conversions across marketing campaigns.
- Created performance KPIs and data-quality flags to monitor campaign effectiveness and data integrity.
